

South Humber Bank Energy Centre

Proposed new low carbon energy centre at South Humber Bank Power Station.

The Planning Application Process

We will apply for planning permission from North East Lincolnshire Council under The Town and Country Planning Act 1990.

The planning application will need to be supported by a number of documents including the Environmental Statement (reporting the findings of the EIA), design drawings, technical reports and a summary of the consultation we have undertaken.

We intend to submit the planning application in November 2018. It is anticipated that NELC would make a decision on the application in early 2019.

Please let us have your comments

Please use one of the feedback forms available to provide us with your comments on our proposals.

Alternatively, you can submit your comments by post or email:

Post: South Humber Bank Energy Centre Consultation, c/o DWD LLP, 6 New Bridge Street, London EC4V 6AB

Email: consultation@shbenergycentre.co.uk

If writing or e-mailing with comments, please also indicate if you agree to receive occasional project related communications.

If you have any questions, please ask a member of the project team here today.

Please let us have your comments in writing no later than **5pm on Friday 28th September 2018.**

We will consider views and information provided in response to this consultation before finalising our proposals and submitting the planning application.

The information presented at this exhibition is also available on our website at **www.shbenergycentre.co.uk**.

Thank you for attending this exhibition and for your feedback.
